Examiner: WUJCIAK, ALFRED J, Art Unit 3632

In response to the Office Action dated March 15, 2006

Date: April 21, 2006

Attorney Docket No. 10113961

REMARKS

Responsive to the Office Action mailed on March 15, 2006 in the above-referenced application, Applicant respectfully requests amendment of the above-identified application in the manner identified above and that the patent be granted in view of the arguments presented. No new matter has been added by this amendment.

Present Status of Application

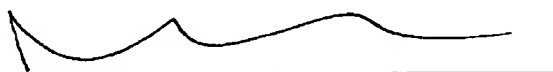

Claims 1-3 and 12-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Watt et al (US Patent No. 5,501,420) in view of Cho (US Patent No. 5,870,280). Claims 4-11 and 17-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 25 is allowed.

In this paper, claim 4 is amended to include all the limitations of claims 1-3. Claim 17 is amended to include all the limitations of claim 14-16. Claims 1-3 and 12-16 are canceled.

Applicant notes that claim 19 was identified as "currently amended" in the amendment filed on January 5, 2006. In fact, the claim was not amended. Applicant notes, however, that the original specification lacked a period after the numeral 19.

Applicant believes that the application is now in condition for allowance and respectfully requests so.

Respectfully submitted,

Nelson A. Quintero
